

# Digital Fluency Training: Sign Up Now

## Prepare for the health care jobs of the future

Technology is changing fast and transforming health care. Prepare now. Gain digital fluency skills.

A new Kaiser Permanente training program for employees can help. The Digital Fluency program is an online course that will empower you to:

- be comfortable working in a digital environment
- understand technology's role in health care
- know where to find additional learning resources

## Learn critical skills

Digital fluency is one of four critical skills all Kaiser Permanente employees need to meet the changing demands of health care.
